Day 2

2010/4/9

(Fri)

09:30-12:30 **Strand 1: Low-Carbon Building and Eco City**

Sicily Room (2401 -2503) (Level 1)

This strand offers a broad and integrated platform for industry interaction and technology exchange. Green building, sustainable infrastructure and low-carbon constitute the biggest magnet of industry conversion towards the green economy. This strand will focus on the impacts of our current cities, what policies, plans and actions need to be put into place and how people must be a part of the solution rather than part of the problem.

High profile think-tank presentations on issues of global concern, as well as that of direct concern to our future. Including urban ecology, low carbon transport, green and intelligence building, low carbon technologies etc.

Moderator: Ms. Jeong In Leng Yvonne, Macao Architect Association

09:30 – 09:50 **Eco City**

Mr. Guo Weihua, Sub-Director of The Environmental Protection Bureau of Zhong Shan , representative of Guangdong Provincial Environmental Protection Bureau

11:50 – 12:10 **An Initial Investigation to Create Urban Climatic Map for Macau**

Ms. Ren Chao, PhD Candidate, The Chinese University of Hong Kong

12:10 – 12:30 **Q & A**

Strand 2: Clean Technology and Circular Economy

Florence Room (2201 – 2303) (Level 1)

This strand offers renewed priorities for international cooperation and industry synergy on promotion of green economy and conversion towards clean industries, in particular interaction between China and EU. This strand will focus on the huge benefits of the Circular Economy approach to resource-use efficiency, which integrates cleaner production and industrial ecology. Highlighting a series of successful CDM projects underway from Southern region of PPRD, that China is giving priorities to clean development mechanism projects.

Presentations include successful CDM projects and the development of the circular economy. Role, practical and systematic approach to interaction, technology transfer and synergy between all economic sectors in achieving the circular economy.

Moderator: Prof. Milan Konečný, Masaryk University

09:30 – 09:50 **The Linkages Between Trade, Climate Change and Green Economy and WTO**
Ms. Liu-Chan Wai Chun Vivien, Counsellor, World Trade Organization
