2025MIECF：創新綠色發展 建設美麗城市

2025MIECF: Innovation and Green Development – Solutions to Build Beautiful Cities

由澳門特別行政區政府主辦的“2025年澳門國際環保合作發展論壇及展覽”（2025MIECF）謹定於2025年3月27至29日假澳門威尼斯人金光會展舉行。配合國家的“雙碳”目標，圍繞“創新綠色發展 建設美麗城市”為主題，今屆展會首次融合首發元素，打造綠色首發平台，助推創新綠色發展。誠邀海內外環保業界、工商機構及各界人士共襄此國際環保盛會，共繪綠色城市未來藍圖，共拓綠色經濟發展商機。

2025MIECF繼續得到國家發展和改革委員會、國家科學技術部、國家工業和信息化部及國家生態環境部作為特邀支持單位，泛珠三角省／區政府協辦，並由招商投資促進局及環境保護局作為官方承辦單位。MIECF自2008年首屆舉辦，並於2011年成為國際展覽業協會（UFI）認證的專業展會。

今屆綠色展覽面積超過12,000平方米，設五大展區，首設“首發經濟項目展區”和“綠色未來產業展區”，賦能綠色新業態，推動可持續發展。近20家企業在展會上展示首發項目，涵蓋綠色科技、智慧能源、AI綠色管理、碳中和及循環經濟等領域。展期內共安排五場專題配對洽談，包括首發項目、國際綠色低碳、澳琴聯動公共機構環保對接、綠色建築供需及綜合旅遊休閒企業合作交流等主題，為參與各方締造國際綠色合作商機。

今屆大會邀請宜可城一地方可持續發展協會秘書長吉諾·范比金（Gino Van Begin）擔任主題演講嘉賓，在開幕典禮上以“開拓綠色創新 共建美好城市”為題發表主題演講。展會期間舉辦三個“綠色論壇”專題環節，聚焦綠色轉型發展、技術創新、泛珠環保交流合作等議題，邀請海內外環保專家及行業精英分享前沿環保資訊及技術，共探綠色可持續發展新方向。

一連三天會期共舉辦超過20場專題活動，當中包括國際專業論壇、專題配對洽談、研討會、評選活動、發佈會及一會展兩地等。今屆匯聚近40個國家和地區的參展商、與會客商及代表團，國際參展參會代表人數較去年增長約17%，顯示2025MIECF國際“朋友圈”持續擴大，國際化、專業化水平進一步提升。

深化“綠色會展”理念，2025MIECF大會搭建材料的可回收利用率高達90%，是連續第四年舉辦實現“碳中和”的專業展會，同時亦成為澳門首次獲得綠色電力證書（Green Electricity Certificate）的展會。

展會最後一日（3月29日）定為“綠色公眾日”，歡迎公眾透過MIECF平台了解最新環保資訊和技術，加入減碳行列。大會並安排技術參觀，組織與會者參觀電子及電器設備回收設施，以及路氹城生態保護區，搭建環保交流橋樑。

2025MIECF持續以創新驅動綠色轉型發展，謹此向支持單位、合作伙伴及各界人士致以誠摯謝忱，期待與泛珠三角區域、粵港澳大灣區及國際環保先鋒攜手，以2025MIECF為契機開拓綠色經濟新篇章，為建設美麗城市注入新動力！

2025MIECF官方承辦單位
澳門特別行政區政府部門

The 2025 Macao International Environmental Co-operation Forum & Exhibition (2025MIECF), hosted by the Government of the Macao Special Administrative Region, will take place from 27 to 29 March at Cotai Expo, The Venetian Macao. In line with the nation's carbon peaking and carbon neutrality goals, this year's event will for the first time include debut elements under the theme "Innovation and Green Development – Solutions to Build Beautiful Cities", striving to create a green debut platform to fuel innovation and green development. We cordially invite domestic and international environmental professionals, industrial and commercial organisations, and people from all walks of life to join us at this pivotal international environmental event and make collective efforts to chart the course for future green urban development and open up business opportunities for green economic growth.

While the National Development and Reform Commission, the Ministry of Science and Technology, the Ministry of Industry and Information Technology, and the Ministry of Ecology and Environment continue to act as the special supporting organisations, the 2025MIECF is co-organised by the governments of the Pan-Pearl River Delta region and co-ordinated by the Commerce and Investment Promotion Institute and the Environmental Protection Bureau. Launched in 2008, the MIECF has become a professional exhibition accredited by the Global Association of the Exhibition Industry (UFI) since 2011.

This year's Green Showcase covers an area of over 12,000 square metres and features five exhibition zones, including the newly established "Debut Economy Projects Zone" and "Green Future Industry Zone", in a bid to empower new green business models and promote sustainable development. Nearly 20 enterprises will showcase their debut projects during the event, covering a range of areas such as green technology, smart energy, AI-driven green management, carbon neutrality, and circular economy. Five themed matching sessions will be arranged during the event, focusing on debut projects, international green and low-carbon development, environmentally friendly project matching for public institutions from Macao and Hengqin, supply and demand of green buildings, and collaboration and exchanges

among integrated tourism and leisure enterprises, to create international green co-operation opportunities for participants.

Mr. Gino Van Begin, Secretary General of ICLEI - Local Governments for Sustainability, has been invited as the keynote speaker for this year's event, and he will deliver a keynote speech entitled "Innovation Green Development and Building a Beautiful City" at the opening ceremony. Moreover, three Green Forum sessions will be held during the event, highlighting green transition, technological innovation, and environmental exchanges and co-operation in the Pan-Pearl River Delta region. During these sessions, environmental experts and industry elites from home and abroad will be invited to share cutting-edge environmental information and technologies while exploring new pathways to sustainable green development.

More than 20 themed activities have been scheduled for the three-day event, including international professional forums, themed matching sessions, seminars, an awards ceremony, a release meeting, and multi-venue events. Gathering exhibitors, traders, and delegations from nearly 40 countries and regions, this year's event sees an increase of around 17% in the number of international participants compared to last year. This shows that the 2025MIECF has continued to expand its international circle of friends and has become increasingly international and specialised.

To put the "green exhibition" concept into better practice, the 2025MIECF has achieved a recyclability rate of 90% for construction materials, and is a carbon neutral event for the fourth consecutive year. It is also the first exhibition in Macao to be awarded a Green Electricity Certificate.

The last day of the event (29 March) is designated as "Green Public Day" to encourage the public to learn about the latest environmental information and technologies through the MIECF platform and to join the efforts to reduce carbon emissions. A Technical Visit will also be organised to show attendees around the Macao Electronic and Electrical Equipment Recycling Treatment Facility and the Cotai Ecological Zones, building bridges for environmental protection exchanges.

The 2025MIECF remains committed to driving green transition through innovation, and we extend our sincere gratitude to the supporting units, partners, and all sectors of society. We look forward to joining hands with environmental pioneers in the Pan-Pearl River Delta region, the Guangdong-Hong Kong-Macao Greater Bay Area, and beyond, and taking the 2025MIECF as an opportunity to open a whole new chapter in the green economy and inject new momentum into the development of beautiful cities!

綠色配對洽談活動 助您開拓環保商機 Green Matching to Develop Green Business Opportunities

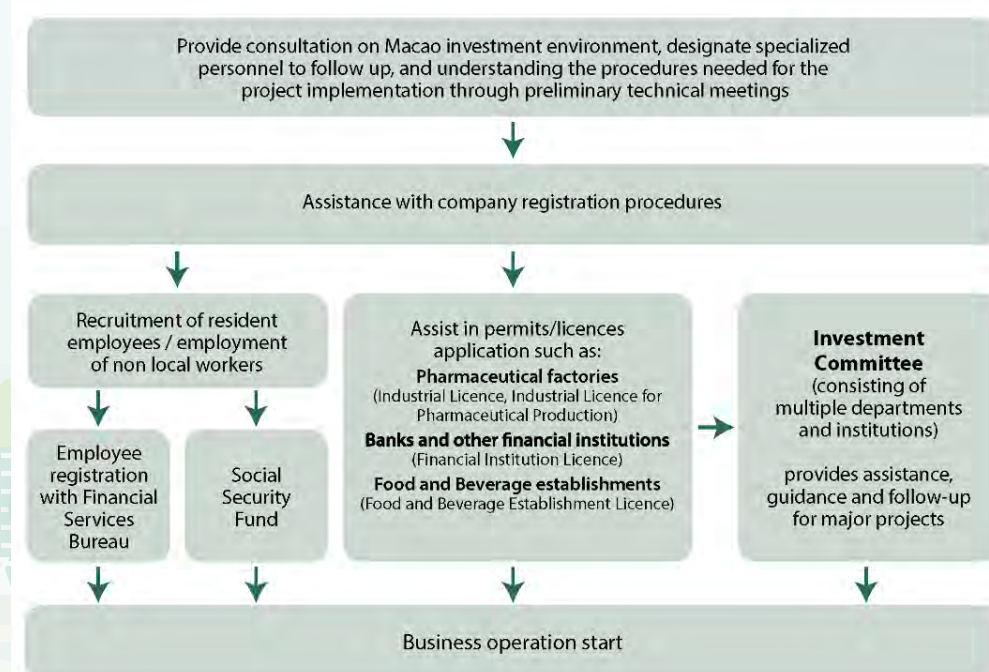

為持續發揮澳門區域性商貿服務平台作用，及配合2025年澳門國際環保合作發展論壇及展覽之大會主題“推動綠色轉型 力踐雙碳目標”，展會除採用人工智能技術，持續提升展會數字化外，還度身打造現場洽談配對及同期活動，促進現場交流與合作。大會將根據客商所尋找的綠色產品/服務需求，透過線上展廳功能，協助尋找合適的合作夥伴，如欲查詢，可前往大會綠色配對區與工作人員接洽。

To further promote Macao as a regional service platform, and featuring the unique theme of "Reaching the Dual Carbon Goals through Green Transformation" of 2025 Macao International Environmental Co-operation Forum & Exhibition (MIECF). Apart from adopting artificial intelligence technology to continuously enhance the digitalisation of the exhibition, it also offers matchmaking meetings and simultaneous activities to facilitate on-site communication and cooperation. Those who have enrolled in the Online Exhibition are able to access global green enterprises, to source and promote their eco products and services. Please proceed to the Green Business Matching Area Service Counter for further information.

引領可持續和健康驅動的奢華酒店未來

在永利，我們致力提供極致奢華體驗的同時，在業務營運的各層面貫徹實行可持續發展和健康理念。憑藉對創新和責任的承諾，我們創造了非凡的體驗，不僅保持無與倫比的服務標準，亦竭力為地球和本地社區帶來持久且積極正面的影響。

我們對環境管理的承諾推動了創新的廚餘管理、減少塑料使用以及與本地中小企業合作回收等方案。同時，永利更透過推出嶄新的康體服務為建設可持續發展的社區作出貢獻，成為全澳首間創建於水療中心內、專門提供物理治療的醫療中心；匯聚康體領域享負盛名的國際專家，探討了健康行業的最新發展和趨勢，展現澳門作為新興康體目的地的魅力，促進澳門「大健康」產業發展。在推行相關康體項目以外，永利亦支持澳門特區政府的「健康企業」計劃，透過提倡健康飲食、規律運動及定期健康監測等措施，鼓勵員工培養健康的生活模式。

作為澳門唯一於旗下所有物業均獲得EarthCheck認證的度假村營運商，印證永利於可持續發展政策及宣揚環境保護工作上的努力。永利亦積極推動綠色旅遊，鼓勵旅客踏足澳門不同的自然美景。此外，我們對在福隆新街片區組織各種活動和表演，藉此推動社區旅遊而感到自豪；同時與本澳政府保持合作，為澳門社區注入更多活力和打造高質量的旅遊產品，共同推動經濟適度多元發展。

Pioneering a Sustainable and Wellness-Driven Future in Luxury Hospitality

At Wynn, we strive to set a new benchmark in luxury by seamlessly integrating sustainability and wellness into every aspect of our operations. With a deep commitment to innovation and responsibility, we create extraordinary experiences that not only delight our guests but also leave a meaningful and lasting impact on the planet and the communities we serve.

Our dedication to environmental stewardship drives initiatives such as innovative food waste management, reducing plastic usage, and implementing local recycling solutions. Simultaneously, we prioritize wellness through services like spa-integrated physical therapy, curated wellness-focused events featuring industry-leading professionals, and meaningful collaborations that underscore our commitment to holistic well-being. We also actively support the Macao Government's "Healthy Enterprise Program" by fostering healthy lifestyles through initiatives centered on nutritious eating, regular exercise, and consistent health monitoring.

As the only integrated resort operator in Macau with EarthCheck certification for all properties, we take pride in setting the standard for sustainable excellence. By encouraging green tourism and inviting guests to explore Macao's natural beauty, we aim to boost community tourism. Through engaging events and performances in the historic Rua da Felicidade district, we further contribute to the vibrancy of the local community. In collaboration with the Macao SAR Government, we work to diversify the economy, give back to the community, and create high-quality tourism offerings.

美高梅開創綠色健康建築典範 MGM Champions Green and Healthy Building

美獅美高梅為澳門唯一、更是大灣區首家及大中華區第二家囊括三星級綠色建築設計標識和運行標識的巨型綜合建築及酒店。美高梅不僅追求可持續發展的環境，更希望提升建築物用家的健康和福祉。美高梅旗下兩家綜合度假村酒店——澳門美高梅和美獅美高梅，已參與WELL規模計劃（WELL at Scale），並成為澳門首個獲國際WELL建築研究院（IWBI）頒發WELL健康-安全評價的綜合度假村。美高梅致力創建對人類和地球友好的可持續環境。

MGM COTAI is the only mega complex and hotel in Macau, first in the Greater Bay Area, and the second in Greater China to earn three-star certifications in both Green Building Design and Operation Labels. MGM not only emphasizes environmental sustainability but also aims to enhance the health and well-being of its building occupants. By making health and wellness a priority, the two integrated resorts of MGM — MGM MACAU and MGM COTAI — have committed to WELL at Scale and became the first integrated resorts in Macau to attain the prestigious WELL Health-Safety Rating from the International WELL Building Institute (IWBI). MGM strives to lead the way in creating a sustainable environment that cares for both people and the planet.

陕西高速机械化工程有限公司 Shaanxi Expressway Mechanisation Engineering Co., Ltd.

陕西高速机械化工程有限公司隶属于陕西交通控股集团有限公司，是一家从事市政公用及房屋建筑、公路建设、养护及试验检测施工及高新技术企业，公司多年来致力于新技术、新工艺、新设备和新材料的研发、应用、推广和技术服务工作。

Shaanxi Expressway Mechanized Engineering Co., Ltd. belongs to Shaanxi Transportation Holding Group Co., LTD. It is a company engaged in municipal public works and housing construction, highway construction, maintenance, testing and inspection, and it is also a high-tech enterprise. For many years, the company has been committed to the research and development, application, promotion, and technical services of new technologies, new techniques, new equipment, and new materials.

公司研发的固化剂，可代替水泥、石灰、等材料，固化建筑垃圾、工业固废、尾矿渣等，用于公路、地铁、水利、建筑、民航场站、园区等多种工程，在保证工程质量的前提下，可降低工程费用，达到低碳环保的目标。

The curing agent developed by the company can replace cement, lime, and other materials, solidify construction waste, industrial solid waste, tailings, etc., and is used in many projects such as highways, subways, water conservancy, construction, civil aviation terminals, parks, etc. Under the premise of ensuring project quality, it can reduce project costs and achieve the goal of low-carbon environmental protection.

公司构建了一套科学高效的建筑垃圾处理体系，通过先进的破碎、筛分技术，将建筑垃圾精准分离为不同规格的再生骨料。这些再生骨料被广泛应用于各类项目中，如基坑填筑、制作小型构件、再生砖，其质量完全符合工程标准。该技术不仅降低了建设成本，还大幅消纳了建筑垃圾，有效保护了生态环境。

The company has built a set of scientific and efficient construction waste treatment system, through advanced crushing and screening technology, the construction waste is accurately separated into different specifications of recycled aggregate. These recycled aggregates are widely used in various projects, such as foundation pit filling, making small components, recycled bricks, and their quality fully meets engineering standards. This technology not only reduces the construction cost, but also greatly consumes construction waste and effectively protects the ecological environment.
